## Software Controlled IED Training Range (SCITR)

### Features:

- Up to 3 Sided Exercises (Security Forces, Terrorists & Bystanders)
- Realistic Training
  - Blasts with Audio & Smoke.
  - Kill & Danger Zones.
  - IEDs can be shifted around.
  - Exercises can be Recorded and Replayed.
- Control Room with Control Panel: With real time view of IED blasts
  - Blasts on range are seen on LED screen.
  - Command type IEDs can be initiated.
  - Live video of exercise is seen on a separate screen (if surveillance cameras are fitted).
- CIED Exercise Sets
  - Security Forces Equipment Set.
  - Terrorist/Insurgents Set.
    - IEDs Set.
    - Post Blast Investigation Set.
    - Suicide Bomber Set.
  - Bystanders and Scenarios Set (to depict bystanders and different scenarios).

### Advantages:

- Training Realism: By introducing realistic scenarios, bystanders and actual CIED tasks.
- Training Flexibility: Due to flexible infrastructure provided.
- Exercise Monitoring & Control: Through the Control Panel.
- Recording Exercises for Analysis and Lessons Learnt.
